

**YOUR  
EXTRAORDINARY  
EDUCATION  
STARTS  
HERE**

# OPPORTUNITIES AWAIT YOU

**Wisconsin's technical colleges will get you where you want to go, even if you don't know where that is yet. Step inside a technical college and you'll meet staff and faculty who are eager to welcome and inspire you.**

Your decision to begin a focused, hands-on education is an extremely smart one. You can be as involved as you want to be in your education, but we realize many students also juggle other responsibilities. Wherever your journey takes you, Wisconsin's technical colleges offer what you need to grow and be successful.

## YOUR EDUCATION OFFERS A WIDE RANGE OF OPTIONS:

- 1 Build your future with skills you'll gain through hands-on learning and expert instructors who know their industries inside and out and want to help you on your journey.
- 2 Gain both experience and confidence when you learn skills using the latest tools and technologies.
- 3 Meet your goals while continuing your responsibilities. You have many options through flexible scheduling and course delivery options.
- 4 Focus on the classes and learning you need to succeed. We provide support systems that will help you do just that.
- 5 In addition to an outstanding, focused education, we have everything you could want to make the best of your journey and grow. Professional groups and clubs, student government, study abroad, honor societies, leadership development, athletics and residence halls are just a few examples of ways to challenge yourself along your way.

LEARN MORE!

# LIFELONG LEARNING

## Open doors to many opportunities.

It may be cliché, but the world really is changing before our eyes. New technology may replace some jobs, but there will be entirely new careers requiring new skills. Your technical college education will prepare you for the challenge.

Employers — many of which rely on our graduates as future skilled employees — partner with us to help ensure you receive a relevant and high-quality education. Whether you want to pick up skills through a certificate, a degree, or something in-between, technical colleges will prepare you with technical skills as well as problem-solving and critical thinking skills.

If you want the option of continuing your education in the future, you can:

- Begin with liberal arts in a technical college and decide later to transfer into a university.
- Start in a technical program in a technical college and benefit from over 700 program-to-program transfer agreements with other colleges or universities.

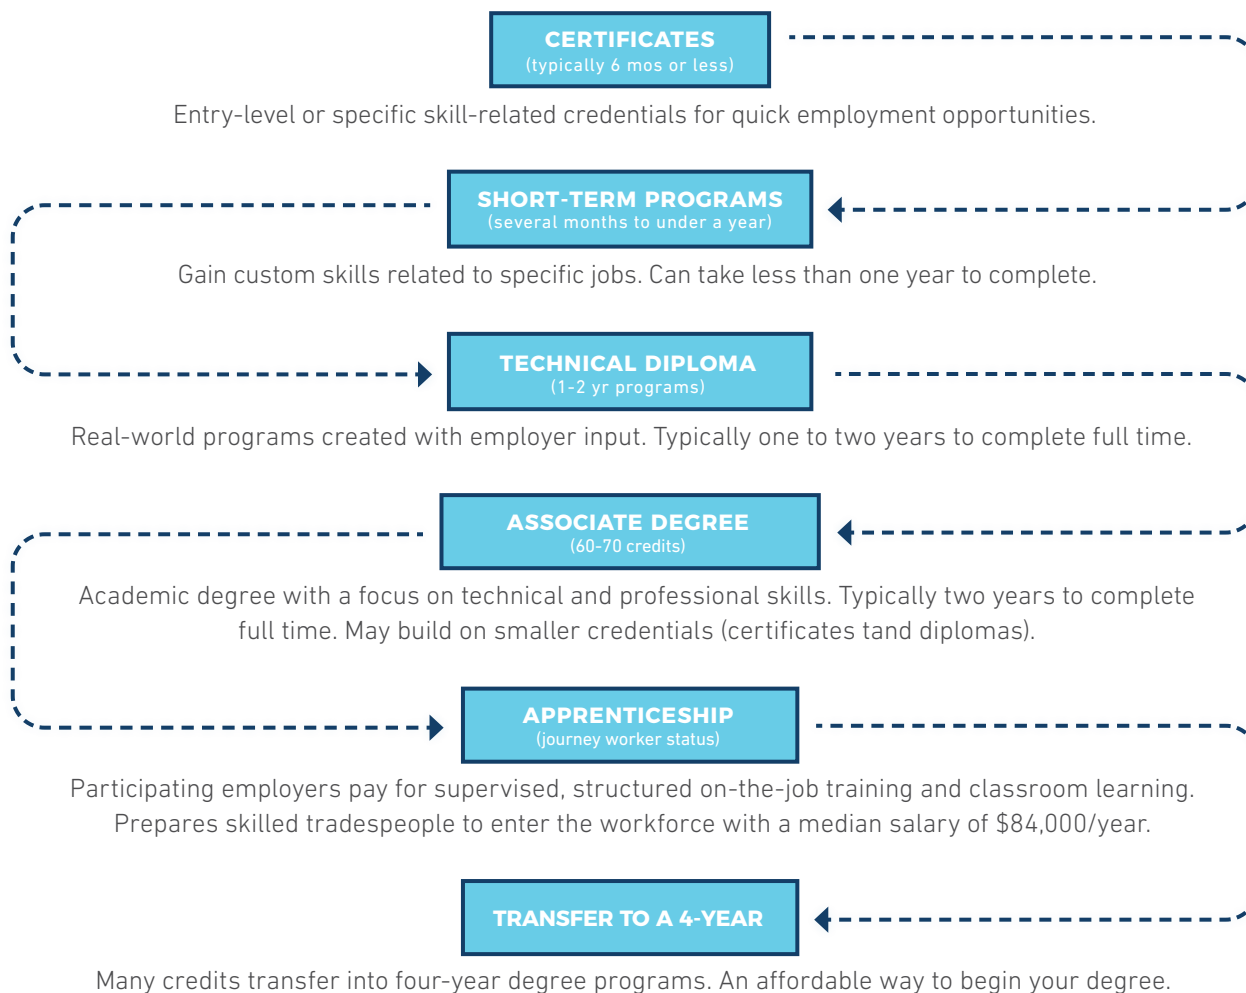

Technical college classes are rigorous, but most are smaller and include practical labs or simulations that really enhance learning. These focused classes will enrich your depth of knowledge and experience. Technical colleges have the added benefit of affordability, so you don't break the bank on your way to your career.

## TECHNICAL COLLEGES CAN CREATE OPPORTUNITIES AT ANY POINT IN LIFE:

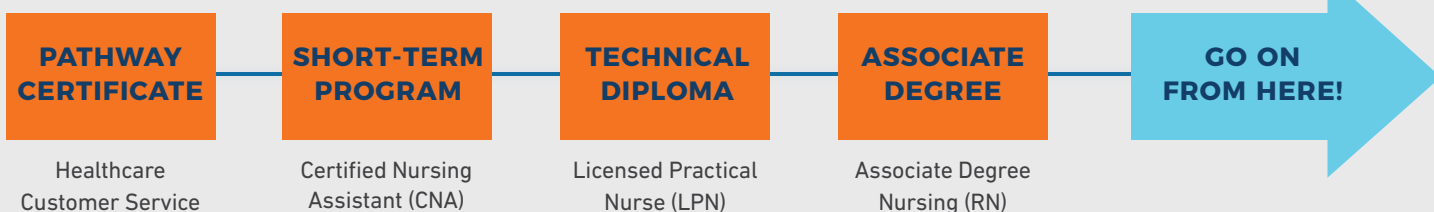

- Students may take college credits for free in high school, saving time and money on college credits.
- Veterans can often build on knowledge or add to their military experience and leadership skills with credit for prior learning.
- Professionals may want to add or develop new skills and earn industry certifications.
- Technical college students or graduates can apply their credits toward a four-year university or college degree.
- Bachelor's degree holders can get more targeted workplace skills to help their career or advancement prospects.
- Employers can invest in employees by supporting continued learning and job growth.

# DEGREES FOR EVERY NEED

Career pathways help you dream big while starting small; your technical college offers tons of flexible options. You can start with a shorter program or certification and add on new skills and credentials. Or you may already have a bachelor's degree but want to add specific skills. There are so many ways to increase your skills and marketability to reach the next career level.

Below is an example of a pathway a student might take if they are interested in health care. Each step in the pathway adds credentials and improves career outlook. Students can start at any point along the path.

# EARN CREDIT BEFORE COLLEGE

## DUAL CREDITS

### ADVANCED STANDING AND TRANSCRIPTED CREDIT

You can earn college credits before starting college. In fact, the more college credits you earn in high school, the further you will be on your path toward a college degree. Some students who plan carefully may even complete a college degree or diploma while in high school. This valuable opportunity gives you a head start on your degree while saving you time and money.

### START COLLEGE NOW

If you're a qualifying junior or senior in high school, you can take college courses at a Wisconsin technical college. Approved courses count toward high school graduation and college credit.

Visit [WTCSsystem.edu/dualcredit](https://www.wtcsystem.edu/dualcredit) for more information on earning college credits while still in high school.

## YOUTH APPRENTICESHIP

Youth Apprenticeship offers great opportunities for high school students. Participating students can explore college courses and related careers on the way to high school graduation. The employer pays the college costs and pays the student for part-time work under the supervision of a skilled mentor.

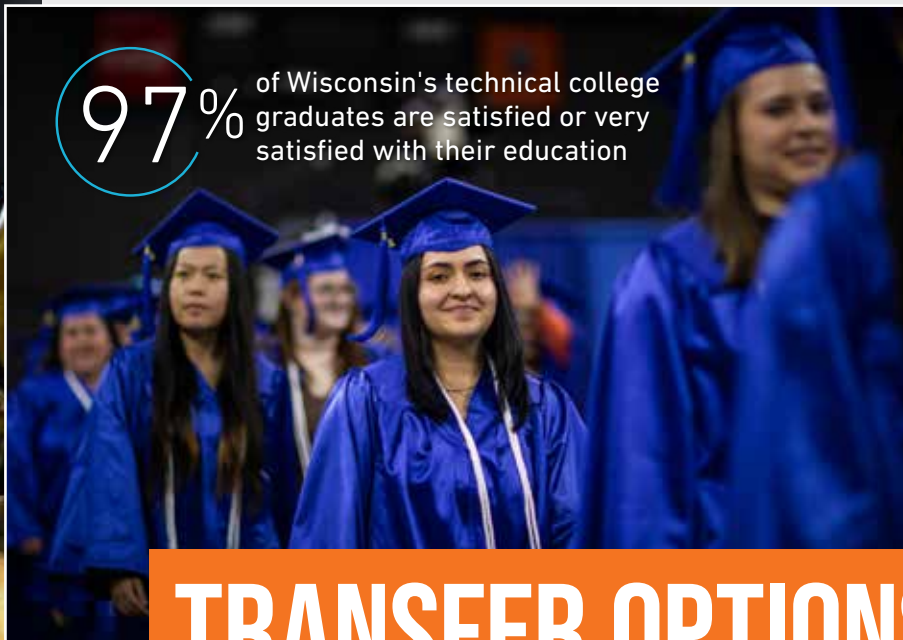

**Youth apprenticeships are available in many different industries, including:**

- Agriculture
- Finance
- Manufacturing
- Marketing
- Health Sciences
- Food and Natural Resources
- Architecture and Construction
- Information Technology (IT)
- Science, Technology, Engineering and Math (STEM)
- Transportation, Distribution and Logistics
- Arts, A/V Tech and Communications
- Hospitality, Lodging and Tourism

**97%** of Wisconsin's technical college graduates are satisfied or very satisfied with their education

## TRANSFER OPTIONS

It's your life. Your path. Your college. Whenever you need us. These are your credits to transfer, whenever and wherever you want to go.

Wisconsin's technical colleges offer a variety of certificates and degrees that build on each other, giving you more options for progressing at your pace. You can advance in your job or move between institutions to gain additional credentials or degrees.

IN

### TRANSFER CREDITS INTO A TECHNICAL COLLEGE

If you previously attended another college or university, you may be able to transfer credits, receive existing credits or earn new credits for skills and knowledge you gained at that college. Wisconsin's technical colleges also grant college credit for career-related learning, work experience and military service.

OUT

### TRANSFER CREDITS INTO A UNIVERSITY (program specific or liberal arts)

All 16 technical colleges have program-specific transfer agreements with four-year private colleges and universities and the University of Wisconsin System as well as some colleges and universities in other states.

All Wisconsin's technical colleges also offer an Associate of Arts or Science degree (may also be called University Transfer or Liberal Arts Transfer) and if eligible, you'll receive junior status when transferring into a college at the University of Wisconsin System.

***You should verify your credit transfer status with both institutions before assuming you will qualify.***

# KEEPING COLLEGE AFFORDABLE

**Wisconsin's technical colleges are affordable and save time, which saves more money.**

## **WISCONSIN RESIDENT**

**Degree and Diploma Program:**

----> **\$146.20 per credit**

**Associate of Arts & Science Degree:**

----> **\$188.90 per credit**

## **OUT-OF-STATE RESIDENT**

**Degree and Diploma Program:**

----> **\$219.30 per credit**

**Associate of Arts & Science Degree:**

----> **\$283.35 per credit**

## **PROMISE PROGRAMS & OTHER SCHOLARSHIP OPPORTUNITIES**

Many of Wisconsin's technical colleges are making college possible for qualified, low-income students in their respective technical college districts. Promise programs are funded privately through relationships with local partners. These programs allow new high school graduates — who otherwise may be unable to attend technical college because of low family income — to earn a degree tuition-free. Check with your technical college of choice to see if it offers these opportunities.

## **EDVEST 529 COLLEGE SAVINGS PLAN**

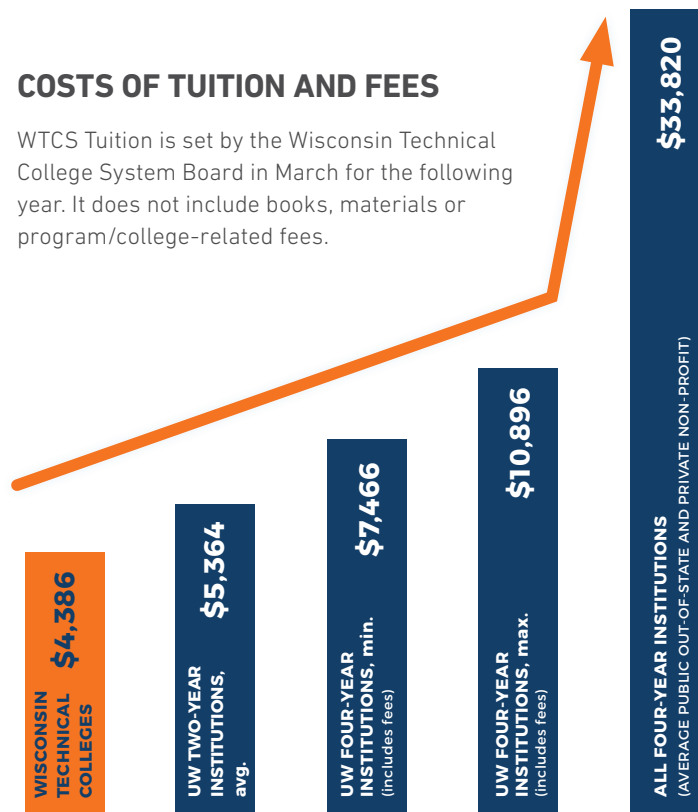

The Edvest College Savings Plan is designed to make it easy to save for college while creating tax advantages — even on a modest budget. Open an account with as little as \$25 per investment option. Some contributions may be Wisconsin tax-deductible up to a certain amount; learn more at [edvest.com](https://www.edvest.com).

## COSTS OF TUITION AND FEES

WTCS Tuition is set by the Wisconsin Technical College System Board in March for the following year. It does not include books, materials or program/college-related fees.

**Sources:** WTCS Tuition Workgroup; UW HELP System Tuition Chart  
The College Board 2023, College Costs: Calculator

## FINANCIAL AID

Students who are interested in financial aid should complete the Free Application for Federal Student Aid (FAFSA). Many factors determine the level and types of aid students receive. Learn whether you qualify for state and federal financial aid programs at [fafsa.gov](https://fafsa.gov). You won't know if you are eligible for financial aid unless you apply. It's well worth the effort.

For more information about federal student aid programs, eligibility and the application process, consult the U.S. Department of Education website [studentaid.gov](https://studentaid.gov). Students interested in financial aid need to complete the FAFSA as soon as possible after October 1 for enrollment the following fall.

## COLLEGE GOAL WISCONSIN EVENTS

College Goal volunteers help students and families complete financial aid application forms, including the FAFSA. There are typically more than 30 events around the state between November and January. Learn more at [collegegoalwi.org](https://collegegoalwi.org).

## SHARED PROGRAMS

To provide more program options, a college may collaborate on, or share, a program with another college, offering some classes at each institution. Students seeking financial aid must apply at the degree-granting college that will process and pay the financial aid.

# A COMPLETE COLLEGE EXPERIENCE

## Design your own unique path.

The ideal college experience for many people includes both personal and professional growth opportunities.

A technical college experience is flexible and allows numerous ways to carve your own path and enrich your life along the way. In addition to the many faculty and staff dedicated to your success, there are many support systems in place and resource-rich facilities to help you make the most of your education.

### CAMPUS FACILITIES

- Student lounges
- Health clinics
- Daycare facilities
- Writing labs
- Cafés and cafeterias
- Library and technology resources

### SUPPORT SERVICES

- Student support groups
- Emergency assistance grants
- Employment / Career centers
- Campus food pantries
- Tutoring

## It's not just schoolwork.

If you want to expand your experience, explore interests, meet people and challenge yourself, our student life opportunities are numerous and broad. In fact, several technical colleges offer residence halls. Here are just a few examples of how you can have a fulfilling experience.

- College intramural sports
- Professional groups and clubs
- College extramural teams
- Leadership development activities
- Honor societies
- Student government
- Drama, journalism and arts
- Study abroad opportunities
- NJCAA (National Junior College Athletic Association) sports, including Esports
- Service learning - opportunities to give back to the community using your practical skills and knowledge

You can begin with as few as two credits or you can earn a complete diploma or degree, **THE FUTURE IS IN YOUR HANDS.**

## CAREER-FOCUSED EDUCATION

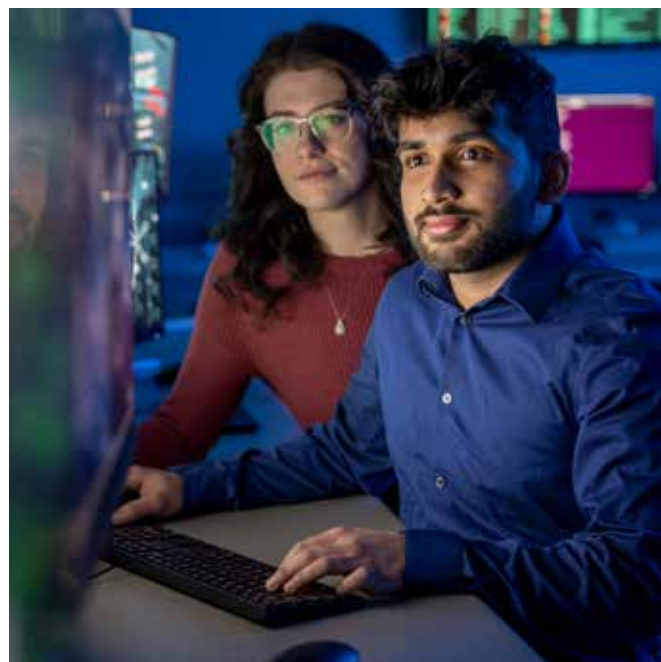

High-tech and skilled positions in Wisconsin now account for 60% of jobs in industries such as advanced manufacturing, health care and IT. Our classes in career-focused programs are led by instructors who are experts in their fields and are happy to share their knowledge.

Here's the best part: starting with an associate degree does not prevent you from transferring those credits into a bachelor's degree, whether you want a career-focused degree or a liberal arts education. We offer more opportunities than ever. In fact, as technology changes, many students who already earned a bachelor's degree enroll at a technical college to earn a career-focused degree in a field that is relevant, fulfilling and growing.

## CONNECTING JOB SEEKERS AND EMPLOYERS

Wisconsin's technical colleges have dedicated career service specialists to help you accomplish your career goals, if that means finding an internship or landing that perfect job. A free online platform called Handshake is a statewide employment listing connecting more than 16,000 employers with technical college graduates and students who are seeking employment.

- Post your resume online and benefit from a network of employers whose needs will be matched to your skills.
- Get email notifications of available jobs relating to your program.
- Search all employment opportunities and customized results.
- Discover the employers that have viewed your profile and those who have messaged you.

# SERVING THE NEEDS OF OUR VETERANS

## BENEFITS FOR VETERANS AND MILITARY PERSONNEL.

More veterans are enrolling in college than ever before. Wisconsin's technical colleges have responded by increasing the services and assistance they provide to veterans. Credit for prior learning and experience gives veterans a head start. GI benefits help veterans get a hands-on education and mold their valuable and hard-earned experience around future career possibilities. Let us help you develop and promote your talents in a field that matches your skills.

# CHIPPEWA VALLEY

## FOR YOU. FOR LIFE.

At CVTC, our students' dreams are our mission. The learning opportunities are endless, and the support surrounding our students is second to none. With 165+ programs, certificates, apprenticeships, and a wide selection of continuing education options, we offer fast, flexible and affordable opportunities to jumpstart your future or continue your educational journey.

We work closely with business and industry leaders throughout our 11-county district to ensure our graduates are prepared to succeed and can find a career in their desired field upon graduation close to home.

Our industry-connected instructors have years of real-world experience and will help you learn the skills to pursue your dream. Last year CVTC served over 16,500 students, and our associate degree graduates made an average starting salary of \$54,110!

More than 95% of our students are employed within six months of graduation, with the majority staying in the Wisconsin workforce and an impressive 82% securing jobs in their field.

CVTC offers a unique experience to help you thrive and grow personally and professionally. Whether you are a high school student looking toward the future, an adult searching for a new career, or simply want to take a class, **let CVTC show you how we can be there for you, for life!**

# LAKESHORE

## REAL EXPERIENCE FOR THE REAL WORLD.

Lakeshore Technical College has over 70 degree programs in 15 focus areas including Advanced Manufacturing, Business Management & Administration, Healthcare, Public Safety and Culinary Arts. Even more impressive? Lakeshore has program and course transfer options with all University of Wisconsin System campuses and 15 private in-state colleges — **more than 300 total transfer options.**

These agreements continue to grow every year and students can save thousands of dollars in tuition, fees, housing, and personal expenses. Seventy-three percent of Lakeshore's associate degree graduates who continue their education choose a four-year institution. On estimate, students save \$6,000 in tuition and fees alone by staying at home and attending Lakeshore their first two years of college rather than attending a four-year college. Those savings are significantly higher when considering housing costs.

### COLLEGE YOUR WAY

Lakeshore strives to offer higher education your way. Some prefer online, some prefer nights, and others are looking for something more traditional. All programs offer personalized attention from instructors experienced in their fields. Whether you're seeking an associate degree to begin your career or wanting to further your education, Lakeshore is your starting point.

For more information on individual Lakeshore courses or associate degree programs that transfer to other colleges, visit [gotoltc.edu/transfer](http://gotoltc.edu/transfer).

# MADISON COLLEGE

## THERE'S MORE TO YOUR STORY.

At Madison College, you'll find more than a high-quality, affordable education. You'll find a brighter future.

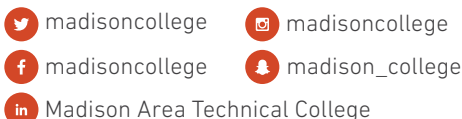

Gain new skills through career-focused training and student activities. Do you dream of transferring to a four-year college? We'll help you get there — and save thousands of dollars along the way.

We offer more than 150 programs that result in associate degrees, technical diplomas and certificates. Earn while you learn in one of nearly 30 apprenticeship programs. Courses are taught by award-winning faculty with years of industry experience.

Madison College has partnership agreements with more than 50 accredited four-year institutions, including UW-Madison. We also have the lowest tuition among eight area colleges so you'll graduate with less debt.

Many of our technical programs also pave the way toward a bachelor's degree. Career and Employment Center staff will help you select the right career and guide you through your employment search. Make personal and professional connections through internships, volunteering and global education opportunities. Discover work and activities that inspire and sustain you now and in the future.

# MILWAUKEE AREA

## PROUD TO BE MILWAUKEE'S ALTERNATIVE.

With high-quality education, low-cost tuition, flexible start dates and small classes, MATC is proud to be the Milwaukee area's alternative to go to — and pay for — college or career training. We also offer a less expensive path to a four-year degree through more than 40 college/university transfer partners.

### OUR GRADUATES ARE SUCCESSFUL:

- **\$52,714 average starting wage** for associate degree grads
- **\$49,175 average starting wage** for technical diploma grads

### WHY DO 20,000+ STUDENTS CHOOSE US?

MATC features innovative technology for hands-on learning, instructors with real-world experience, bilingual programs and staff, internship and clinical placement opportunities, and assistance connecting to careers or four-year partners. For needs outside of class, we offer resources to help with child care, food, housing and transportation.

MATC's full-ride and free-tuition scholarship programs make it the affordable option for eligible students. The MATC Promise covers eligible students' tuition costs, up to 75 credits, after scholarships and grants are applied. The Ellen & Joe Checota MATC Scholarship Program covers the total cost of a technical diploma or certificate program, helping students move into the workforce faster. See [matc.edu/scholarships](https://matc.edu/scholarships) for details about both scholarships.

### FIND THE PROGRAM THAT'S RIGHT FOR YOU!

# NICOLET COLLEGE

## NICOLET WORKS FOR YOU.

Whether you're earning a technical degree or transferring to a university, Nicolet College will work for you. With hands-on learning, you can develop a skill and apply it directly to a career. Or you can start your education toward a higher degree with our pre-major options and liberal arts degrees. Plus, multiple start dates, personalized-pace, online programs and low tuition work to make college doable and affordable for you.

### HERE'S HOW NICOLET WORKS FOR OUR STUDENTS

*"Nicolet was the perfect option for me... it allowed me to explore what I really wanted to focus on before going to a UW school."*

— Langdon, University Transfer

*"The tuition was so affordable that I could go to college and not have a ton of debt. That was a huge relief."*

— Nick, Criminal Justice

*"The small class sizes were really nice because I created relationships with my peers and I had more one-on-one time with my instructors which was really helpful."*

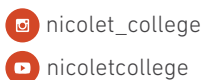

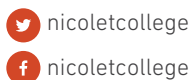

— Lindsay, Associate of Arts

*"My instructors were extremely helpful and knowledgeable. They were always willing to support me and had so much experience to share."*

— Matt, Information Technology

*"Nicolet works because it offered a close to home location, the hours and times of my classes were very flexible, and it offered me a friendly and supportive environment."*

— Val, Early Childhood Education

## START HERE. GO ANYWHERE.

At Northcentral Technical College (NTC), you can choose from over 190 programs in the most in-demand fields including Agricultural Sciences, Utilities, Transportation, Business, Engineering + Advanced Manufacturing, Health and Public Safety. Our flexible learning options meet you where you're at and take you where you want to go. So whether you want to learn in person, online through our innovative Virtual College or decide day-by-day or week-by-week based on your preference and schedule with NTC Connect, we're here to help you succeed.

### AFFORDABLE.

With our affordable tuition, beginning at NTC just makes sense. Students graduate with less debt and start earning faster.

### EMPLOYABLE.

Ninety-two percent of Class of 2020, 2021 and 2022 graduates in the labor force reported they were employed within one year of graduating. In fact, many students get jobs even before they've crossed our graduation stage.

### TRANSFERABLE.

Continue learning by transferring to one of our 45+ public and private university partners, including the opportunity to earn your Associate of Arts or Science through NTC's new University Transfer Degree.

### ENJOYABLE.

We invite you to live, connect and grow as you embrace the full Timberwolf experience. Our state-of-the-art facilities feature the latest and greatest technology and labs to help you transition seamlessly to the workforce. Live on campus at Timberwolf Suites, participate on our collegiate Esports team, join an intramural sport or club and take in all that NTC campus life has to offer.

# NORTHEAST WISCONSIN

## SOAR HIGHER WITH US.

Imagine this: You're thriving in a career you love. And making a difference every day. For your community. For your family. For you.

It all starts at NWTC, where you can excel in a flexible, career-focused degree that fits your goals. Match your interests with one of our 200-plus academic programs (if you're unsure of your career path, we can help!). Complete a micro credential to quickly advance your career. Choose how and when you want to learn – in-person or online, day, evening, or weekend.

### UNAPOLOGETICALLY AFFORDABLE PATH TO A BACHELOR'S DEGREE

Begin your bachelor's at NWTC and save thousands in tuition. We have transfer agreements with over 40 other colleges/universities. All NWTC associate degrees have one or more transfer options.

### TWO YEAR DEGREE. FOUR YEAR FUTURE

With our two-year Associate of Arts and Associate of Science transfer degrees, you can complete your gen eds at NWTC and transfer as a junior to one of our partner colleges/universities.

### EXPERIENCE COLLEGE LIFE

- Live music, student clubs, multicultural events and much more are all part of life at NWTC.
- Student housing is located just steps from the Green Bay campus.
- Travel and learn through numerous study abroad opportunities. Our students have traveled to Thailand, Belize, Ireland and many other countries.

## EXPERIENCE. SUCCESS.

### AN INNOVATIVE EDUCATION

Northwood Tech is a nationally top-ranked and Military Friendly® college, known for its commitment to academic excellence, personalized instruction and hands-on learning. The college creates dynamic opportunities for career preparation and personal growth. With more than 100 years of innovative education, Northwood Tech continues to focus on "Learning First" while embracing innovative theories, techniques and technologies to ensure success in a changing world.

### COLLEGE WHERE AND HOW YOU WANT IT

Take classes that fit your lifestyle whether online, in-person, hybrid, or live streaming, giving you the ultimate in flexibility and the support you need to succeed. Northwood Tech's hands-on, high-tech education will give you the confidence and skills you need to **Experience. Success.** The college offers over 100 career programs and certificates to choose from, including 10 programs unique in Wisconsin.

### STAY CLOSE TO HOME OR GET AWAY

You have options with campuses in Ashland, New Richmond, Rice Lake and Superior; outreach centers in Balsam Lake, Hayward and Ladysmith; and a new state-of-the-art Health Education Centers. Explore a new location and take advantage of student housing offered nearby or stay close to home.

### SEAMLESS TRANSFER

Northwood Tech's Associate of Arts/Associate of Science degrees allow you to complete up to 72 credits of general coursework that transfers seamlessly toward a bachelor's degree within the UW System. All associate degree programs also have at least one articulation agreement with a four-year college or university.

# SOUTHWEST

# WISCONSIN

## THIS IS WHERE YOU BELONG.

Southwest Tech serves a variety of students – they all have various backgrounds and are pursuing different goals. The thing they all have in common is that they belong. At Southwest Tech, everyone is welcome.

Faculty and staff care about you and your success. At Southwest Tech, faculty and staff unite to create a support network for every student. We provide the knowledge and support to help students make earlier and better program decisions and enroll in courses consistent with those decisions. Every single one of our students has a unique student success plan, from prospective students to thriving employees, we are with you every step of the way!

Our programs offer work-based learning opportunities leading to a high-wage career. Southwest Tech offers 60 degree and certificate programs, many of which can be taken online. Every program includes work-based learning opportunities to engage and interact with industry experts, while learning essential employability and technical skills necessary for today's workforce. Work-based learning can take various forms, such as practicum, clinical and internship courses, apprenticeships, and other course-based learning experiences in which students interact directly with potential employers.

**The knowledge, experience and degree you earn from Southwest Tech will lead to a high-wage career!**

# WAUKESHA COUNTY

## HANDS-ON HIGHER ED.

Applied learning, state-of-the-art technology, instructors with real-world experience, transfer options and employer connections are just a few reasons students choose Waukesha County Technical College — and have been doing so for a century.

Classes are hands-on and interactive — as well as available online and in hybrid formats. Faculty successfully combine theory with practice, and everyone at WCTC is committed to student success.

### WE'LL HELP YOU ON YOUR WAY

We offer 170+ programs in high-demand fields. Many career pathways are available for those interested in earning credentials in stages and building toward advanced certificates, technical diplomas or associate degrees — all leading to skills that can immediately be applied to the workforce.

### GET A HEAD START WHILE STILL IN HIGH SCHOOL

WCTC offers multiple ways for high school students to earn high school and college credit simultaneously, including the new Excelerate initiative, which allows qualified juniors and seniors to apply directly into a college program.

### A WELL-ROUNDED EDUCATION

WCTC's diverse student organizations help you strengthen networking and leadership skills. Internships provide real-world experience and often lead to employment. Service learning gives you the chance to integrate education while giving back to the community. On-campus resources feature a variety of tutoring services and career planning tools, and if you need financial assistance, we can help there, too.

# WESTERN

## IT'S ABOUT FINDING WHO YOU ARE.

College is where you meet new friends, try new things and earn a degree that gives you the life you want. At Western, you can do that and a whole lot more.

Get the full college experience by living in our 200-bed, suite-style residence hall. Hang out with your friends in the Union Market —complete with fresh, made-to-order food, comfy couches, and large screen TVs. Join one of our 35 clubs and organizations, student government, or one of four competitive NJCAA sports teams, including an Esports team!

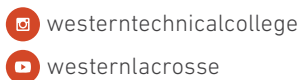

### IT'S ABOUT THE ESSENTIAL EXPERIENCE YOU NEED

You want the career that's right for you, and Western can help you get there. Health sciences, public safety, transportation, business, or information technology? Western has more than 100 career options. Our instructors have the essential experience required to teach you the skills you need with the latest technology.

Not to mention that 100% of our associate degree and technical diploma programs provide volunteer opportunities and real-world work experiences. Build your resume while you learn from local employers!

### AND THE CHOICES YOU WANT

Maybe you want to start here and transfer there? No problem. In addition to our Associate of Arts and Associate of Science degrees, we have transfer agreements with universities both near and far. Take up to two years of generals at Western and transfer to almost any four-year college, or take advantage of our program-to-program agreements to save thousands on the same education.

# APPLICATION FOR ADMISSION

To apply online, start here: [WTCSystem.edu/colleges](http://WTCSystem.edu/colleges)

1. \_\_\_\_\_  
Legal name: Last                      First                      Middle

2. \_\_\_\_\_  
Former last name(s) (if applicable)

3. \_\_\_\_\_  
Current mailing address

4. \_\_\_\_\_  
City                      State                      Zip Code

5. \_\_\_\_\_  
Permanent address (if different)

6. \_\_\_\_\_  
City                      State                      Zip Code

7. (    )                      (    )  
Primary phone number                      Secondary phone number

8. \_\_\_\_\_  
E-mail address

9. \_\_\_\_\_  
Date of Birth (MM/DD/YY)

10. Gender:  Male  Female  Prefer not to answer

11. Are you a U.S. Veteran, Active Duty Armed Service Member, or a current member of the National Guard or Reserve?  Yes  No

12. Are you in the U.S. on a Visa?  Yes  No

12a. If yes, Visa Type \_\_\_\_\_ Visa No. \_\_\_\_\_

13. I am a resident of (circle one): City / Village / Town

13a. \_\_\_\_\_  
City/Village/Town                      County                      State

14. \_\_\_\_\_  
Name of high school district in which you now reside

The following questions are confidential. Your responses will help the technical college evaluate recruitment and retention practices and will not affect admission to the college.

15. Select highest degree earned by either parent:

None                       Bachelor's degree  
 High school diploma                       Associate degree  
 Master's or beyond

16. The following questions relate to racial and ethnic identity. Please respond to both questions.

16a. Are you Hispanic or Latino (a person of Cuban, Mexican, Puerto Rican, South or Central American or other Spanish culture or origin, regardless of race)?  Yes  No

16b. Select any other group or groups that apply to you.

American Indian or Alaska Native. A person whose ancestors include native peoples of North and South America (including Central America), and who maintains a tribal affiliation or community attachment.

Asian. A person whose ancestors include native peoples of the Far East, Southeast Asia or the Indian subcontinent (including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand and Vietnam).

Black or African American. A person whose ancestors include any of the black racial groups of Africa.

Native Hawaiian or other Pacific Islander. A person whose ancestors include the native peoples of Hawaii, Guam, Samoa or other Pacific Islands.

White. A person whose ancestors include native peoples of Europe, the Middle East or North Africa.

17. I wish to attend \_\_\_\_\_ Technical College at \_\_\_\_\_ Campus

18. Have you attended this college before?  Yes  No If yes, last year and semester attended \_\_\_\_\_

19. List previous colleges and universities attended (official transcript will be required for credit transfer)

College/University Name	City	State/Province	Date Attended	Date Graduated
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____

20. Please provide the semester you wish to begin:  Fall  Spring  Summer (if applicable) Year \_\_\_\_\_

21. Program/major choice \_\_\_\_\_ Program number (if known) \_\_\_\_\_

22. Are you a high school graduate?  Yes  No If yes, date of graduation (month/year) \_\_\_\_\_

23. Name of last high school attended \_\_\_\_\_ City \_\_\_\_\_ State \_\_\_\_\_

24. If you did not complete high school and receive a diploma, have you completed either of the GED Tests?  Yes  No or HSED?  Yes  No  
If yes, date completed (MM/YY) \_\_\_\_\_ Test Center \_\_\_\_\_

25. Select the highest credential received:

No credential (No GED or higher)                       High school diploma                       1-year diploma                       Associate degree plus additional credential  
 GED                       Some college (postsecondary credit)                       2-year diploma                       Bachelor's degree  
 HSED                       Short-term diploma                       Associate degree                       More than Bachelor's degree

# APPRENTICESHIPS FOR YOUR FUTURE!

## APPRENTICESHIP IS A UNIQUE PATHWAY TO A CAREER.

Like other program offerings, apprenticeships combine on-the-job training with classroom instruction, giving you tremendous skills and knowledge to succeed in your career. Apprenticeships also offer great job prospects and family-supporting wages. Unlike other program offerings, many participating employer-sponsors cover the tuition and fees as an investment in your success and growth opportunities.

Where apprenticeships were once common only in skilled trades like construction and manufacturing, apprenticeships are recognized as such an effective way to educate and prepare workers that they are now available for some service careers including finance, IT and health care.

If you want to earn money from the start and have a great chance to finish without student debt, an apprenticeship may be just the right opportunity. For the latest listing of apprenticeship offerings, please visit [wtcsystem.edu/apprenticeships](http://wtcsystem.edu/apprenticeships).
