WTCS OVERVIEW

MISSION

In 1911, Wisconsin became the first state to establish a system of state support for vocational, technical and adult education – now known as the Wisconsin Technical College System (WTCS). That same year, the Wisconsin Legislature also established Wisconsin's highly-regarded Apprenticeship program, and our statewide System continues to uphold the high standards of our mission statement, as outlined in state statutes:

The Wisconsin Technical College System provides comprehensive education opportunities that position students and employers to thrive in the face of rapid changes in the workplace, creating economic vitality for individuals and communities throughout the state.

ORGANIZATION

We lead Wisconsin's technical colleges to anticipate and meet the evolving needs of students and employers.

The colleges offer relevant, high-value credentials; customized instruction and technical assistance; dual credit for high school students; Adult Education instruction and English Language Learning; and transfer opportunities for those pursuing a four-year degree. In this work, the colleges maintain uniquely close ties to employers, helping local economies thrive and more importantly, instilling in students confidence in their employment prospects.

Whether you're measuring student success or the level of importance that employers place on our role in the success of their business - measures that we take routinely – Wisconsin's technical colleges deliver.

DATA IN THIS REPORT

Because submission schedules differ for student and financial data, the WTCS Fact Book is published in two parts beginning in 2019. To provide the latest student data in a timely manner, the Fall WTCS Fact Book focuses on student enrollment and completion trend data, typically through the most recently completed academic year. The Spring WTCS Fact Book includes financial data. Rather than including or repeating footnotes for each table, we have included ENDNOTES with data definitions and methodology for each table.

ENDNOTES

¹ Starting with the Fall 2021 semester, all 16 colleges were approved to offer Associate of Arts and Associate of Science degrees.

² Includes Short-Term, 1-Year and 2-Year Technical Diplomas.

³ Non-degree courses designed to meet a specific continuing education need, such as professional development and public safety offerings.

⁴ Courses taught at the high school level or below; includes Adult Education, English Language Learning (ELL), and career exploration courses.

⁵ Self-enrichment offerings including art, craft or avocational.

⁶ Students enrolled in courses in more than one category (column) are counted only once in the total.

⁷ Full-Time Equivalent (FTE) is equal to 30 credits per year; figures may not add due to rounding.

⁸ Individuals lacking the resources and/or skills necessary to succeed in an educational program. Also includes individuals enrolled in adult education courses.

⁹ Individuals or members of a family who receive need-based financial assistance, or whose income is at or below the federal poverty level defined by the U.S. Department of Health and Human Services.

¹⁰ Limited English Proficiency (LEP) includes individuals with limited ability to speak, read, write, or understand the English language, and whose native language is a language other than English; or those who live in a family or community environment in which a language other than English is the dominant language; or those enrolled in English Language Learner (ELL) courses.

¹¹ Individuals with a physical or mental impairment that substantially limits one or more major life activities; a person who has a history of such an impairment; or a person who is perceived by others as having such an impairment.

¹² Adults who have worked for a substantial number of years providing unpaid household services for family members; are not gainfully employed (unemployed or underemployed); have had - or would have - difficulty securing employment; have been dependent on the income of another household member, but are no longer supported by such income; have been dependent on public assistance but are no longer eligible for such assistance, or may be terminated from such assistance; or who are the parent of a minor child who is supported by public assistance or child support, but whose children are within two years of termination from such support.

¹³ Individuals who are unmarried or legally separated and who have custody of one or more minor children, or are pregnant.

¹⁴ Individuals in programs tied to occupations in which 25% or fewer workers are either men or women, or Non-Traditional Occupations (NTO).

¹⁵ Individuals in prison, jail, detention centers or halfway houses.

¹⁶ Allows a pupil enrolled in a public school district to take up to two courses at any time from a qualified institution of higher learning. The cost of 50% tuition plus material fees is covered by the high school if there is room for the student at the institution of higher learning. Course Options was eliminated by 2017 Wisconsin Act 59. Trend data now reflects public and private high school participation.

¹⁷ Allows public high school juniors and seniors who meet certain requirements to take postsecondary courses at a Wisconsin technical college. Approved courses count toward high school graduation and college credit. Trend data now reflects public and private high school participation. (Formerly Youth Options)

¹⁸ A college course and all of its resources are provided to a high school student by a qualified high school instructor while still in high school. The students gain a college transcript, college credit and high school credit. Trend data now reflects public and private high school participation.

¹⁹ Allows high school juniors and seniors who meet certain requirements to receive school-based and work-based instruction in employability and occupational skills defined by Wisconsin industries. Trend data now reflects public and private high school participation.

²⁰ The statutorily defined mechanism a high school uses to contract with a technical college and their instructor to teach a college level course to high school students. Trend data now reflects public and private high school participation.

²¹ Credit is activated when a student enters a program at a Wisconsin technical college. The college has an articulation agreement with the high school stating that one or more high school course(s) outcomes align to the first college level course. No additional costs are incurred to the student or high school.

²² Estimated value is in millions. Value is calculated using the applicable tuition rate charged each year.

²³ Consists of course offerings customized in content, time, and/or location to meet the specific needs of the recipient.

²⁴ Consists of non-instructional activities designed to assist the service recipient in accomplishing an organizational goal or purpose.

²⁵ Labor force includes employed individuals and unemployed individuals who are seeking employment.

²⁶ Individuals reporting employment in an occupation related to their technical college training.

²⁷ Includes only those reporting an employment location.

²⁸ Instructional programs were historically assigned to pathways, clusters and divisions. The "division" assignment was based on the first digit of the program's instructional area. Divisions are an outdated system of classifying instructional areas and are no longer tracked by WTCS as of FY2021. WTCS continues to use pathways and clusters when assigning instructional programs.

²⁹ Individuals who earned an Apprenticeship Completion certificate from the DWD-Bureau of Apprenticeship Standards, and who attended a WTCS college for related classroom instruction.

* Number too small to report, for confidentiality.

**Less than three wages reported.
